

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	August 2026
Project Name	ServiceNow-Based Employee Laptop Request Application

Step-1: Team Gathering, Collaboration and Select the Problem Statement

The selected focus problem is the need for a centralized and controlled employee laptop request workflow.

Selected Problem: Employees and IT managers need a standardized laptop request process because manual requests, duplicate submissions, unclear approval status and repeated follow-up reduce efficiency and accountability.

Step-2: Brainstorm, Idea Listing and Grouping

Request Experience

- Centralized employee laptop request form
- Basic vs. Advance selection
- Capture request reason
- Auto-fill requester details

Automation

- Automatic manager approval flow
- Automatic status updates
- Approval/rejection emails
- Optional IT notification

Policy & Control

- One request per employee per year
- Validate request data
- Enforce role-based access
- Prevent duplicate records

Visibility & Tracking

- Pending/Approved/Rejected status
- Approval history
- Request number
- IT reporting

Security

- it_employee role
- it_manager role
- Table-level ACLs
- Controlled permissions

Future Enhancements

- IT dashboard
- Laptop provisioning trigger
- SLA/escalation reminders
- Asset-management integration

Step-3: Idea Prioritization

Ideas are prioritized using Importance and Feasibility for the ServiceNow project.

Centralized request form	High	High	1 — Must Have	Core entry point for the solution.
Automated manager approval	High	High	2 — Must Have	Reduces delays and manual follow-up.
Duplicate prevention	High	High	3 — Must Have	Enforces the yearly request policy.
Status + email notifications	High	High	4 — Should Have	Improves transparency and communication.
Role-based ACL security	High	Medium-High	5 — Must Have	Controls employee and manager access.
IT dashboard	Medium	Medium	6 — Could Have	Useful but not essential to the core flow.
Asset/provisioning integration	Medium	Low-Medium	7 — Future	Good extension after the workflow is stable.

Final Prioritized Solution

Centralized request form + automated manager approval + duplicate prevention + status/email notifications + role-based ACL security.
