

Ideation Phase

Empathize & Discover

Date	August 2026
Project Name	ServiceNow-Based Employee Laptop Request Application

Empathy Map Canvas

This empathy map is based on the project goal of replacing manual employee laptop requests with a centralized ServiceNow workflow. It considers the experience of employees, managers and IT stakeholders.

THINK & FEEL

- Wants a simple and fast way to request a laptop.
- Worries about approval delays and unclear status.
- Feels frustrated by manual email or verbal requests.
- Expects a fair and transparent approval process.

SEE

- Manual email and verbal laptop requests.
- A ServiceNow request form.
- Basic and Advance request types.
- Pending Approval, Approved and Rejected states.

HEAR

- Managers ask employees to follow the approval process.
- IT emphasizes justification and tracking.
- Employees hear that duplicate requests should be avoided.
- Stakeholders expect approval notifications.

SAY & DO

- Submits a laptop request form.
- Selects Basic or Advance and gives a reason.
- Waits for manager approval.
- Checks status and responds to notifications.

PAIN

- Manual and inconsistent request methods.
- Duplicate laptop requests.
- Unclear approval status.
- Repeated manual follow-up.

GAIN

- Centralized request submission.
- Automatic duplicate prevention.
- Transparent status tracking.
- Automated approval and notifications.
- Role-based security.
